Experience

Maxifier, Samara, Russia

Intern

April 2017 – June 2017

Data Analysis and developing the proof of concepts of internal projects.

Data Engineer

June 2017 – Present

Developing the high performance application for multidimensional forecasting and its evaluation.

Education

Samara University, Samara Russia

Master Degree Student

September 2017 – Present

Data Analysis and Quality Assurance, Average Point 5.0

Bachelor of Science

Sep 2013 – June 2017

Applied Mathematics and Physics, Average Point 4.75

Skills

Personal: rational, responsible, sociable

Base Skills: advanced knowledge in mathematics(linear algebra, calculus, mathematical analysis), intermediate knowledge of machine learning methods and algorithms

Natural Languages: Russian (native), English (intermediate)

Programming Languages: Python 3 (intermediate knowledge for writing batch processing jobs and data science), Scala, Java (regular knowledge for writing REST API services and batch processing jobs)

Frameworks and libraries: Apache Spark, Apache Hadoop, Apache Mesos, Docker, Scipy(Pandas, Numpy, Matplotlib), Scikit-learn, Akka, Slick

Build Tools and VCS: Maven, Bazel, Git, Gitlab CI, Github

Others: fundamental knowledge about the development process (Process Cycle of Software Applications Development, methodologies, QA(methods and approaches), Bussiness and System Analytics(methods and approaches))
